POVIJEST

Ambijentalne odlike zapadnohercegovačkog područja u cjelini ga afirmiraju kao prostor s nedvojbeno najkvalitetnijim mikroklimatološkim, hidrografskim i pedološkim potencijalima, prikladnim za stabilan i svestran razvoj društvenih zajednica kako tijekom prapovijesnih, tako i povijesnih perioda. O tome jasno svjedoči podatak iz Arheološkog leksikona BiH, kao najpotpunije i jedine relevantne kvantifikacije svih potencijala te vrste, koji registrira i opisuje više stotina arheoloških nalazišta koja ispunjavaju dug vremenski okvir od neolitika do kasnog srednjeg vijeka. Zbog toga je ovdje neupitno postojanje vrlo ozbiljnih i dugotrajnijih naseobinskih cjelina i s njima povezanih drugih vrsta arheoloških nalazišta kao što su: privredni objekti i kompleksi, groblja, svetišta i sl. Među inim, na ovom području registriamo kulturno-povijesnu baštinu koja pripada nacionalnoj ili svjetskoj baštini.

HISTORY

The ambient features of the West Herzegovina area as a whole affirm it as an area with undoubtedly the highest quality microclimatological, hydrographic and pedological potentials. It is suitable for stable and versatile development of social communities during both prehistoric and historical periods. This is clearly evidenced by the data from the Archaeological Lexicon of BiH, as the most complete and only relevant quantification of all potentials of this kind, which registers and describes hundreds of archaeological sites that meet a long-time frame from the Neolithic to the late Middle Ages. Therefore, the existence of very serious and long-lasting settlement units and other related types of archaeological sites, such as: economic facilities and complexes, cemeteries, shrines, etc., is unquestionable here. Among other things, in this area we register cultural and historical heritage that belongs to the national or world heritage.

Tvrđava Herceg Stjepana Kosače

Fortress of Herceg Stjepan Kosača

LOKACIJA / LOCATION:
GRAD LJUBUŠKI
CITY OF LJUBUŠKI
43°12'04"N - 17°33'29"E

Kasnosrednjovjekovno utvrđenje feudalnog vladara herceg Stjepana Kosače, najmonumentalniji je arheološki objekt grada Ljubuški, smješten na istaknutom vrhu krševitog lanca brda Buturovica (396 m nadmorske visine) i kao takav simbol je grada Ljubuškog, ali i Hercegovine. Kompleks tvrđave sastoji se iz dva dijela. Središnja kula četverokutnog oblika, popularno zvana „Herceguša“, izgrađena krajem 14. ili početkom 15. st. te perimetralni zid u obliku nepravilnog višekutnika sa masivnim kulama, nastao u osmanskim razdoblju nakon 1472. godine. Kompleks zauzima površinu od 3.350 m², a sastoji se od više cjelina, kao što su mali i veliki obor sa tabijom te razne građevine; stražarnica, žitnica, pekara, oružarnica, barutana i 4 cisterne. Srednjovjekovno podgrađe razvilo se na terasi Crkvice, podno južnog dijela grada. Nedaleko od ulaza (oko 250m sjevero-zapadno) u tvrđavu nalaze se ruševni ostaci džamije iz polovice 16. st. U njenim temeljima pronađeni su dijelovi crkvenog namještaja predromaničke dubrovačke produkcije (9.-11. st.). Ljubuški se po prvi puta u povijesnim izvorima spominje 15. veljače 1435. godine pod nazivom Lubussa. Grad po prvi put pokoravaju osmanske vlasti 1463. godine, a konačno 1477. godine kada se spominje u defteru Hercegovačkog sandžaka. U zakladnici Nesuh-age Vučjakovića 1565. godine, grad se spominje kao „Kala Lupuška“ (Tvrđava Ljubuški).

Tijekom 17. st. Ljubuški postaje središte kadiluka, a konačno se napušta 1835. godine, nakon što gubi svoju obrambenu i stratešku svrhu. Tijekom 17. st. dubrovački majstori obnavljaju ove zidine po prvi put. Na žalost poradi seizmičkog djelovanja i utjecaja atmosferičija tijekom 20. st. ova tvrđava je bitno oštećena. Odlukom Povjerenstva za očuvanje nacionalnih spomenika BiH, graditeljska cjelina STARI GRAD U LJUBUŠKOM proglašena je u listopadu 2003. nacionalnim spomenikom Bosne i Hercegovine.

The late medieval fortification of the feudal ruler Duke (Herceg) Stjepan Kosača is the most monumental archaeological site of the town of Ljubuški. It is located on the prominent top of the karst chain of Buturovica hill (396 m above sea level) and as such is a symbol of the town of Ljubuški and Herzegovina. The fort complex consists of two parts. The first part, the central tower of the rectangular shape, popularly called „Herceguša“, was built in the late 14th or early 15th century. The second part is a perimeter wall in the shape of an irregular polygon with massive towers, dating from the Ottoman period after 1472. The complex covers an area of 3,350 m² and consists of several units, such as a small and large steeple with a table and various buildings; guardhouse, granary, bakery, armory, gunpowder and 4 water tanks. The medieval suburb was developed on the terrace of Crkvice, at the bottom of the southern part of the town. There are the ruins of a mosque from the mid-16th century not far from the entrance (about 250m north-west) into the fort. Ljubuški was mentioned for the first time in historical sources on February 15, 1435, under the name Lubussa. The city was conquered for the first time by the Ottoman authorities in 1463, and finally in 1477 when it was mentioned in the defter of the Herzegovina Sandžak. In the foundation of Nesuh-aga Vučjaković in 1565, the city is referred to as the „Kala Lupuška“ (Ljubuški Fortress).

During the 17th century, Ljubuški became the center of the „Kadiluk“, and was finally left in 1835 after losing its defensive and strategic purpose. During the 17th century, masters from Dubrovnik renovated these walls for the first time. Unfortunately, due to the seismic effect and weathering during the 20th century, this fort was significantly damaged. By the decision of the Commission to Preserve National Monuments of Bosnia and Herzegovina, the architectural ensemble of STARI GRAD IN LJUBUŠKI was declared a national monument of Bosnia and Herzegovina in October 2003.

Nekropola Stećaka Dilić / "Stećak" Necropolis Dilić

Bilizi, kamici, stećci ili mramorovi, srednjovjekovni su kameni nadgrobni spomenici, koji se pojavljuju u 13. stoljeću, s vrhuncem uporabe i razvoja u 14. i 15. st. Prema dosadašnjim istraživanjima poznato je oko sedamdeset tisuća biliga, od čega u Hercegovini i Bosni 86 %, a ostatak u Hrvatskoj, Crnoj Gori i u Srbiji. Najbrojnija grobišta biliga nalaze se na području Hercegovine. Najveću pozornost izazivaju ukrasi i simboli na bilizima, koji su poznati na šest tisuća primjeraka. Motivi se mogu svrstati u više kategorija: bordure, astralni motivi, križevi, oružje, životinje, ljudske figure i scene (kolo, lov, turniri). U tipične hercegovačke motive spada povijena lozica s trolistom, arkade s polukružnim ili šiljatim lukovima, štitovi s mačem, kolo i lov na jelena. Izbor motiva odraz je vjerske kršćanske ikonografije. Ptice, jeleni, konji i kola mogu simbolizirati selidbu pokojnikove duše. Tijela su pokapana u ispruženu položaju, s glavom prema zapadu i nogama prema istoku. Natpisi na bilizima, njih oko četiristo, kriju mnoge tajne drevnih klesara i pisara. Nijedan natpis nema formulaciju koja bi se mogle odnositi na heretično učenje. Na Diliću se nalazi 35 biliga. Dio je ugrađen u obližnju cestu 1931., a 11 primjeraka nalazi se u suhozidu pored ceste. Ukrašeno je njih 17, zacijelo imućnijih pokojnika. Od 2016. g. ovo je jedan od dvadeset dva lokaliteta iz BiH sa stećcima na UNESCO - voj Listi svjetske baštine.

Stećaks, steles or marblestones are medieval stone tombstones that appeared in the 13th century, with the peak of use and development in the 14th and 15th century. According to the previous research, about seventy thousand biligs are known, 86 percent of which are in Bosnia and Herzegovina, and the rest in Croatia, Montenegro and Serbia. The most numerous bilig cemeteries are located in Herzegovina. The most noteworthy are the ornaments and symbols on the biligs, which are known to six thousand specimens. Motifs can be classified into several categories: borders, astral motifs, crosses, weapons, animals, human figures and scenes (wheel, hunting, tournaments). Typical Herzegovinian motifs include a bent vine with a trefoil, arcades with semicircular or pointed arches, shields with a sword, a wheel and deer hunting. The choice of motifs is a reflection of religious Christian iconography. Birds, deer, horses and carts can symbolize the migration of the deceased's soul. The bodies were buried in an outstretched position, with the head facing west and the legs facing east. The inscriptions on the biligs, about four hundred of them, hide many secrets of ancient stonemasons and scribes. No inscription has a formulation that could refer to heretical teaching. There are 35 biligs at the locality Dilić now. One part was built into a nearby road in 1931, and 11 copies are found in the drystone wall by the road. Seventeen biligs are decorated and probably belonged to lower aristocracy. Since 2016, this is one of twenty-two Bosnian and Herzegovinian sites with biligs inscribed on the UNESCO World Heritage List.

Arheološki muzej Humac / Archeological Museum Humac

U sklopu Franjevačkoga samostana nalazi se arheološka zbirka zvana Muzej Humac. Utemeljena je 1884., četiri godine prije Zemaljskoga muzeja BiH u Sarajevu. Sadržava eksponate s područja Hercegovine od neolitika do srednjega vijeka, u različitim materijalima: kamenu, bronci, bakru, željezu, srebru, zlatu, keramici, staklu i drvetu. Ljubuški kraj najbogatiji je ostacima rimske kulture u cijeloj Hercegovini. Pronađena su 74 kamena natpisa, od kojih je najviše vojnih nadgrobni spomenika (stela), ponekad naručivanih iz poznatih radionica u Tiliriju (Trilju) i Naroni (Vidu kod Metkovića). U Muzejskoj zbirci nalazi se Humačka ploča, jedan od najstarijih i najznačajnijih čiriličnih spomenika na području BiH. Natpis govori o gradnji crkve Sv. Mihovila Arkandela, čiji ostaci nisu pronađeni, a pisao ga je slabo pismen klesar u obliku spirale.

Unutar samostana otvorena je zbirka umjetnina naziva "Majka", s oko 250 umjetnina. Zastupljeno je 40-ak kipara i 20-ak slikara iz Hrvatske i BiH, dva kipara iz Slovenije, ruski slikar Aleksandar Zvjagin, te nekoliko kipara i slikara iz Konga. Od hrvatskih kipara ističu se Ivan Meštrović, Antun Augustinčić, Frano Kršinić i Zlatko Prica.

Within the Franciscan monastery there is an archaeological collection called the Humac Museum. It was opened in 1884, four years before the National Museum in Sarajevo. The collection contains a large number of exhibits from Herzegovina, from the Neolithic period to the Middle Ages, in a variety of materials: stone, bronze, copper, iron, silver, gold, ceramics, glass and wood. The area of Ljubuški in Herzegovina abounds mostly in remains of Roman culture. Among other things, 74 stone inscriptions were discovered, most of which are military tombstones. They were sometimes commissioned from famous workshops in Tiliurium (today's Trilj) and Narona (Vid near Metković). The museum collection of the Franciscan monastery in Humac accommodates the Humac tablet, one of the oldest and most important Cyrillic monuments in BiH. The inscription tells us about the construction of the church of St. Michael the Archangel, whose remains have not yet been found. It was written by a poorly literate stonemason, applying a spiral way of writing.

As part of the Franciscan monastery in Humac, an art collection called "Mother" was opened, containing around 250 works of art. About forty sculptors and twenty painters from Croatia and Bosnia and Herzegovina are represented, two sculptors from Slovenia, a Russian painter Alexander Zvjagin, and several sculptors and painters from Congo. Ivan Meštrović, Antun Augustinčić, Frano Kršinić and Zlatko Prica are the most famous Croatian sculptors whose artworks can be found in the collection.

Rijeka Trebižat / The river Trebižat

Rijeka Trebižat je desna pritoka rijeke Neretve. Tok rijeke nalazi se u izrazito kraškom području, zbog čega dolazi do poniranja vode duž korita. Na svom ulasku na teritorij općine Ljubuški rijeka ima ime Tihaljina. Tu prima najveće vrelo koje je stalnog karaktera i velike izdašnosti, vrelo Klokun. Nizvodno od Kavazbašina mosta (Klobuk), Tihaljina dobiva naziv Mlade i pod tim imenom protječe kroz Ljubuško polje. Rijeka Mlade sa lijeve strane prima povremeni vodotok Grabovo vrelo i stalni vodotok Vrioštica. Nakon prolaska ispod mosta na Humcu, rijeka dobiva naziv Trebižat. Trebižat na svom toku ima samo jednu stalnu pritoku Studenčicu.

The river Trebižat is a right tributary of the river Neretva. The course of a river is located in a very karst area, which causes water to sink along the riverbed. At its entrance to the territory of the town of Ljubuški, the river has the name Tihaljina. It receives the largest spring of constant character and great generosity, the Klokun spring. Downstream from the Kavazbašina bridge (Klobuk), Tihaljina gets the name Mlade and under that name flows through Ljubuško polje. The Mlade River on the left receives the occasional watercourse Grabovo vrelo and the permanent watercourse Vrioštica. After flowing under the bridge on Humac, the river gets the name Trebižat. Trebižat has only one permanent tributary Studenčica on its course.

Vodopad Kravica / Waterfall Kravica

Slap visine 26 - 28 m nastao je djelovanjem Trebižata. Vodeni amfiteatar promjera 120 m već je 1954. stavljen pod zaštitu kao prirodna rijetkost. Sedreni sloj je prekriven travom, mahovinom i lišajem, a uz slap rastu topole, konopljika i smokve. Voda je stvorila prirodne fenomene od vapnenaste sedre i tamnosmeđe sedraste mahovine. Dominiraju zajednice grmolikih i bodljikavih biljnih vrsta koje tvore šikaru.

River Trebižat created a 26 - 28 m high waterfall. The water amphitheater has a diameter of 120 m, and it has been under protection as a natural rarity since 1954. Limestone layer is covered with grass, moss and lichen, and along the waterfall there are poplar trees, chaste trees and figs. The water has created natural phenomena of limestone travertine and dark travertine moss. Communities of bushy and thorny plants, which form the bush, are the predominant ones.

Vodopad Koćuša / Waterfall Koćuša

Slap Koćuša nalazi se u selu Veljaci u Ljubuškom, na rijeci Mlade koja nizvodno mijenja ime u Trebižat. Prirodno bogatstvo ovog kraja čine sedimentne stijene tzv. sedra koja se taloži godinama, te ovaj slap čini još atraktivnijim. Visina slapa je pet, a dužina pedeset metara. U neposrednoj blizini nalaze se mlinovi i stupe koje su godinama krasili ovo mjesto.

Koćuša Waterfall is located in the village of Veljaci in Ljubuški, on the river Mlade, which changes its name to Trebižat downstream. The natural wealth of this area consists of sedimentary rocks, the so-called travertine that has been deposited for years, which makes this waterfall even more attractive. The height of the waterfall is five meters, and the length is fifty meters. The mills and pillars that have enriched this place for years are nearby.

HOTEL BIGESTE

Hotel Bigeste je hotelsko poslovni kompleks smješten u samom središtu Ljubuškog. Hotel je ranga 4****, izuzetno modernog dizajna i vrhunskog interijera. Suvremeno opremljena svečana dvorana, u kojoj se istovremeno mogu odvijati tri različita događaja, idealna je za održavanje seminara, prezentacija, kongresa, poslovnih sastanaka ili domjenaka, kao i proslava svadbe, krštenja, promocije ili sličnih događaja. Od ostalih sadržaja izdvajamo dva restorana, à la carte restorana i restoran s dnevnom ponudom jela, gradsku kavanu s velikom vrtom terasom, salon za masažu, te niz poslovnih prostora različitih sadržaja. Zbog izuzetno dobrog položaja i povezanosti, Hotel Bigeste je sasvim sigurno najbolji izbor za poslovne ljude kao i za sve one koji dolaze na odmor.

VINOGRAD NUIĆ

Nastavljajući obiteljsku tradiciju uzgoja vinove loze 2004. godine nastala je tvrtka Vinogradi Nuić d.o.o. U selu Crnopol, između Ljubuškog i Međugorja, na krškom lokalitetu površine 35 ha, zasađeno je 190 000 čokota, prvenstveno Žilavke i Blatine. Korištenjem moderne agrotehnike i reguliranjem prinosa dobivamo grožđe vrhunske kvalitete te vina najviše kakvoće. Posjedujemo i moderno uređenu salu za degustaciju kapaciteta 50 osoba gdje se mogu kušati sva naša vina.

Adresa / Address: Crnopol b.b., 88320 Ljubuški
Površina vinograda / Vineyard area: 350 000 m²
GPS: 43.180976, 17.615747
Telefon / Phone: +387 39 849 515 / E-mail: info@vinogradinuic.ba
Facebook: Vinogradi Nuić / Instagram: vinogradinuic / Web: vinogradinuic.ba

Continuing the family tradition of growing vines, the company Vinogradi Nuić d.o.o. was founded in 2004. In the village of Crnopol, between Ljubuški and Međugorje, on a karst site of 35 ha, 190,000 vines were planted, primarily Žilavka and Blatina. By using modern agricultural techniques and regulating the yield, we get top quality grapes and wines of the highest quality. We also have a modern tasting room with a capacity of 50 people where you can taste all our wines.

VINARIJA ŠKEGRO

Naša su vina odraz naše ljubavi. Odraz predanog rada i energije koju ulažemo. Odraz Hercegovine i njenih prirodnih ljepota. Skupa s vinima učimo i rastemo. Sretni smo i ponosni kada pronađu put do vas i ispričaju vam priču. Priču koja traje i ostavlja trag. Naši vinogradi, zasađeni Žilavkom, Blatinom i uz ponešto ostalih sorti, dio su Mostarskog vinogorja, a nalaze se u neposrednoj blizini podruma u Radišićima (Ljubuški). Uz mnogo pažnje, znanja i strpljenja, brižno i kroz cijelu godinu vino radimo i gradimo u vinogradu jer čvrsto vjerujemo da samo vrhunsko grožđe daje vrhunska vina. Imamo i salu za degustaciju kapaciteta 15 osoba.

Adresa / Address: Radišići 13, 88320 Ljubuški
Površina vinograda / Vineyard area: 12 000 m²
GPS: 43.208162, 17.53525

E-mail: info@blatina.hr / Facebook: Skegro family winery
Instagram: skegro_family_winery / Web: Blatina.hr

Our wines are a reflection of our love. A reflection of the dedicated work and energy we invest. A reflection of Herzegovina and its natural beauties. Together with wines, we learn and grow. We are happy and proud when they find their way to you and tell you a story. A story that lasts and leaves a mark. Our vineyards, planted with Žilavka, Blatina and some other varieties, are part of the Mostar vineyards, and are located near the cellar in Radišići (Ljubuški). With a lot of attention, knowledge and patience, we carefully and throughout the year work and build wine in the vineyard because we firmly believe that only top quality grapes give top quality wines. We also have a tasting room with a capacity of 15 people.

VINARIJA KEŽA

Nasadi vinograda Vinarije Keža prostiru se na 25 ha u Studencima, a prilikom sadnje loze naglasak se stavio na autohtone sorte, Žilavku i Blatinu. Kompletan proces proizvodnje vina odvija se uz najmoderniju tehnologiju i u skladu sa vrhunskim svjetskim standardima. Posjedujemo malu salu za degustaciju kapaciteta 20 ljudi.

Adresa / Address: Studenci bb, 88320 Ljubuški

HERZEGOVINA GO

Terenska vozila Pinzgauer omogućuju vam dosezanje najnepristupačnijih područja netaknute prirode. Pustolovno putovanje započinje na najatraktivnijem mjestu u Bosni i Hercegovini, na vodopadima Kravica, prirodnom fenomenu na rijeci Trebižat u Ljubuškom. Vodopad, visok 28 i širok 200 metara, među 20 je najljepših mjesta u Europi. Nakon obilaska vodopada Kravica, s našim terenskim vozilima Pinzgauer odlazimo na brdo Butorovica, na 390 metara nadmorske visine, na kojem se nalazi kula Herceg Stjepana iz 14. stoljeća.

Adresa / Address: Vodopad Kravica, 88320 Ljubuški

Vrsta ponude aktivnog turizma: Off road safari, vožnja brodicom, kampiranje, biciklizam, kajaking, pecanje

Active tourism offer: Off road safari, Boat ride, camping, cycling, kayaking, fishing

GPS: 43.156748, 17.60788 / Telefon / Phone: +387 63 822 000, +387 63 922 000

E-mail: info@hercegovinago.com / Instagram: hercegovina_go / Web: hercegovinago.com

Pinzgauer terrain vehicles allow you to reach the most inaccessible areas of untouched nature. An adventure trip starts at the most attractive location in Bosnia and Herzegovina, on Kravica waterfalls, the natural phenomenon on the river Trebižat in Ljubuški. The waterfall, 28 meters high and 200 meters wide, is among the 20 most beautiful places in Europe. After visiting Kravica waterfalls, with our Pinzgauer terrain vehicles we go to the hill named Butorovica, at 390 meters above sea level, on which a 14th century tower of Herceg Stjepan is located.

PARAGLIDING KLUB LJUBUŠKI

Paragliding klub Ljubuški osnovan je 2016. godine, ali se leti aktivno još od jeseni 2013. godine. Poletište pored kule hercega Stjepana je službeno poletište Paragliding kluba Ljubuški i ima simboličan naziv „Ljubuški – Kula“. Omiljeno je odredište domaćih letača, a rado ga posjećuju i letači iz Austrije, Slovenije, Švicarske, Francuske... Zračni prostor, sa svojim lateralnim i vertikalnim granicama, odobrila je BHANSA (Agencija za pružanje usluga u zračnoj plovidbi) kao jedan veliki korak kada je riječ o sigurnosti, legalnog korištenja zračnog prostora u definiranom gabaritu.

Adresa / Address: Fra Petra Bakule 4, 88320 Ljubuški

Vrsta ponude aktivnog turizma / Active tourism offer: Paragliding

GPS: 43.202868, 17.554968

Telefon / Phone: +385 91 121 5186

Facebook: Paragliding Ljubuški

Instagram: ljubuskiparagliding

Paragliding club Ljubuški was founded in 2016, but flights have been actively performed since the autumn of 2013. The airfield next to the tower of Duke Stjepan is the official airfield of the Paragliding Club Ljubuški and has the symbolic name "Ljubuški - Kula". It is a favorite destination of domestic pilots, and it is gladly visited by pilots from Austria, Slovenia, Switzerland, France... The airspace, with its lateral and vertical borders, was approved by BHANSA (Air Navigation Services Agency), which is a big step when it comes to safety of legal use of airspace in defined dimensions.

PRIRODA

Izvanredna prirodna dobra rezultat su uglavnom rada sedronosnih rijeka koje su karakteristične za krške krajeve, a bogate su kalcijevim karbonatom i pokazatelj da voda nije industrijski i ekološki zagađena. Konačno tvore vodopade koji su kao prirodni fenomen i rijetkost, pod zaštitom države.

NATURE

Outstanding natural assets are mainly the result of the work of tufa-bearing rivers that are characteristic of karst areas, and are rich in calcium carbonate and they are also an indicator that the water is not industrially and environmentally polluted. They finally form waterfalls that are a natural phenomenon and a rarity, under the protection of the state.

Stari grad Kruševac

Old city Kruševac

Srednjovjekovno utvrđenje smješteno je na brežuljku iznad rijeke Lištice. Prvi puta ga spominje fra Petar Bakula u šematizmu hercegovačke franjevačke provincije još 1867. godine. Uskoro ga tematiziraju i drugi povjesničari, poput Fra Dominika Mandića, fra Rudolfa Bonića i fra Bonicije Rupčića koji donose zajednički zaključak o povijesnom nazivu Kruševica. U narodu su poznati i nazivi Gradina i Borak. Toponim Kruševica spominje se u četiri povelje iz 1. pol. 15. stoljeća, a najznačajnija je ona Argonskog kralja Alfonsa V. Prva istraživanja provedena su 1974.-76. godine pod vodstvom arheologa Tomislava Anđelića koji je unatoč skromnim nalazima pokretne baštine, uspio potvrditi arheološki potencijal kasnog srednjeg vijeka. Utoliko, možemo ovaj objekt pripisati hercegovačkim obiteljima velikaša Radovojevića i Vlatkovića te konačnom feudalnom vladaru herceg Stjepanu Kosači.

Utvrdna ima nepravilan oblik četverokutnika sa dodanim četvrtastim kulama i ojačanjima bedema u vidu kontrafora, dok je od ostalih objekata razvidna tek cisterna. Sagrađena je na strateškom položaju u svrhu kontrole puteva Mostar-Duvno i Hercegovina-planina. Tvrdava je prilagođena konfiguraciji terena sa zidovima debljina do 1,5 m, odnosno visine do 6 metara.

The medieval fortress is located on a hill above the river Lištica. It was first mentioned by Franciscan Peter Bakula in the schematism of the Franciscan Province of Herzegovina in 1867. Other historians soon discuss it, such as Franciscans Dominik Mandić, Rudolf Bonić, and Bonicije Rupčić who reached a common conclusion about the historical name of Kruševica. The names of Gradina and Borak are also known among the people. The toponym Kruševica is mentioned in four charters from the first half of 15th century, and the most significant charter is the charter of the king Argon Alfonso V. The first research was carried out in 1974-76. and led by archaeologist Tomislav Anđelić, who, despite his modest findings of movable heritage, managed to confirm the archaeological potential of the late Middle Ages. In this sense, we can attribute this object to the noble families Radivojević and Vlatković in Herzegovina, and to the final feudal ruler Duke (Herceg) Stjepan Kosača.

The fort has an irregular rectangular shape with the addition of square towers and fortifications of the ramparts in the shape of buttresses. Of the other buildings, only the cistern is visible. It was built on a strategic location for the purpose of controlling Mostar-Duvno and Herzegovina-mountain roads. The fort is adapted to the configuration of the terrain with walls up to 1.5 m thick and up to 6 meters high.

VRELO BORAK

Dugogodišnja tradicija i vrhunska kvaliteta osnovni su temelj uspješnog poslovanja restorana "Vrelo Borak". Restoran je otvoren 1966. godine na samom vrelu rijeke Lištice. Od svog otvaranja, pa do danas restoran u svom jelovniku nudi tradicionalne hercegovačke specijalitete. Bogat izbor jela i pića, kvaliteta ponude, jedinstveno prirodno okruženje, te ljubazno i uslužno osoblje čine ovo mjesto jedinstvenim.

A long tradition and top quality are the basic foundation of successful business of the restaurant "Vrelo Borak". Restaurant was opened in 1966 at the very source of the river Lištica. From its opening until today, the restaurant has been offering traditional Herzegovinian specialties in its menu. Wide range of food and beverages, menu quality, unique natural surroundings, kind and polite personnel make this place unique.

RISTORANTE AND WINE BAR BARRIQUE

Ristorante and wine bar Barrique smješten je izvan grada, ali nedaleko od središta. Zbog svoje ponude, za kratko vremena postao je sinonim za sve one željne druženja uz dobar zalogaj. Ponudom se želi potaknuti sve goste na to da Barrique ne doživljavaju samo kao mjesto za ručak ili večeru, nego i kao stanicu za cjelodnevno druženje. Ambijent je moderan i ugodan, podjednako dobar za poslovne susrete, opuštanje vikendom, kao i za večere. Ristorante and wine bar Barriqueu svojoj ponudi ima pretežito laganu hranu, s naglaskom na talijansku kuhinju. Vinska karta je vrlo pristojna, a često se nude i vina kakva se drugdje ne mogu naći.

Adresa: Trnska cesta 25, 88220 Široki Brijeg
Vrsta ponude: Talijanska, internacionalna

Facebook: Barrique / Instagram: ristorante_barrique

Ristorante and Wine bar Barrique is located outside the city, but not far from the center. Because of its offer, in a short time it has become synonymous with all those who want to socialize and have a bite. The offer aims to encourage all guests to experience Barrique not only as a place for lunch or dinner, but also as a station for all-day socializing. The ambience is modern and pleasant, equally good for business meetings, relaxing on weekends, as well as for dinners. Ristorante and Wine bar Barrique offers mostly light food, with an emphasis on Italian cuisine. The wine list is very decent, and we often offer wines you cannot find elsewhere.

HPD ČVRSNICA

Hrvatsko planinarsko društvo Čvrsnica osnovano je 2012. godine. Među članovima društva ubrojili su se i oni koji su već osvajali vrhove Europe, Amerike, Afrike i Azije, i koji se spremni svoje znanje i vještine prenijeti na mlade snage. Plan društva je upoznati ljude s planinama, planinarenjem, upoznavanje novih predjela planina, organizirati planinarsku školu u kojoj će se naši članovi društva upoznati ponašanjem u planini, njezinim ljepotama, a i ujedno opasnostima koje se mogu dogoditi u planinama, te kako ih uspješno rješavati.

Adresa / Address: Stjepana Radića b.b., 88220 Široki Brijeg
Vrsta ponude aktivnog turizma: planinarske pješačke staze, mini ferrata, penjački smjerovi, speleoobjekti, kanjoning, zip line
Active tourism offer: hiking trails, mini ferrata, rock climbing, speleoobjects, canyoning, zip line
Telefon / Phone: +387 63 114 115
E-mail: hpdcvrsnica@gmail.com
Facebook: HPD „Čvrsnica“
Web: hpd-cvrsnica.siroki.net

Croatian Mountaineering Association Čvrsnica was founded in 2012. Members of society also include those who have already conquered the peaks of Europe, America, Africa and Asia, and who are ready to transfer their knowledge and skills to young forces. The plan of the society is to introduce people to the mountains, hiking, getting to know new mountain areas, organizing a mountaineering school where our members will get to know the behavior in the mountains, its beauties, and the dangers that can occur in the mountains, and how to solve them successfully.

BK ŠIROKI

Biciklistički klub Široki osnovan je 2012. u cilju promocije cestovnog i brdskog biciklizma u Širokom Brijegu. Biciklizmom stječemo novu snagu, jačamo fizičku i psihičku izdržljivost, gubimo višak kalorija i uživamo na suncu, svježem zraku i mirisu prirode... Rekreativna vožnja bicikla nema neke dobne granice pa se na ovaj način mogu rekreirati od najmlađih do starijih dobnih skupina ljudi.

Adresa / Address: Fra Valentina Zovke 12, 88220 Široki Brijeg
Vrsta ponude aktivnog turizma: Biciklizam
Active tourism offer: Cycling
E-mail: bk.siroki@gmail.com
Facebook: Biciklistički klub Široki

The Široki Cycling Club was founded in 2012 with the aim of promoting road and mountain biking in Široki Brijeg. By cycling we gain new strength, we strengthen our physical and mental endurance, lose excess calories, enjoy the sun, fresh air and the smell of nature. There is no age limit for recreational cycling, so in this way the youngest age groups as well as the oldest can apply for recreational cycling.

HRANA

Mediterransko podneblje, obilje sunca i sunčanih dana oblikovalo je gastronomiju ovog kraja specifičnim doživljajem ukusa i mirisa. Bogata ponuda hercegovačkih autohtonih proizvoda kvalitetna je i raznovrsna. Kulinarska baština ovog kraja se prenosi generacijama s koljena na koljeno, a na početku je to bila sirotinjska kuhinja, da bi danas postala vrhunska gastronomija.

VINO

U idiličnim vinarijama, pretežno obiteljskim, koji su mali muzeji tehnologije i povijesti vinogradarstva ove regije moguće je uz tradicionalne delicije kušati najkvalitetnija vina. Među najznačajnijim predstavnicima hercegovačkog iskonskog doživljaja svoje mjesto pronalaze autohtona vina žilavka i blatina.

FOOD

The Mediterranean climate, the abundance of sun and sunny days have shaped the gastronomy of this region with a specific experience of taste and smell. The rich offer of Herzegovinian autochthonous products is high quality and diverse. The culinary heritage of this area is passed down from generation to generation, and in the beginning it was poor kitchen, and today it has become a top gastronomy.

WINE

In idyllic family wineries, which are small museums of technology and viticulture history of this region, it is possible to taste the highest quality wines with traditional delicacies. Indigenous wines Žilavka and Blatina find their place among the most important representatives of the Herzegovinian primordial experience.

Stari grad Blagaj

Old town Blagaj

LOKACIJA / LOCATION:
MOSTAR
43°15'36"N - 17°54'09"E

Stari grad Blagaj ili Stjepan-grad je sagrađen na najistaknutijem mjestu visokog i teško pristupačnog kraškog brda, na 310 m nadmorske visine i iznad vrela rijeke Bune od kojeg je udaljen 266 m. Blagajska tvrđava je situirana na prirodno zaravnjenom terenu, nad okomitim liticama sa južne, zapadne i sjeverne strane. Pristup u vidu oštih serpentina, 2 m uska i 900 m duga konjska staza, vodi do ulaza u najčvršćem istočnom zidu predvorja. Zidovi su dobrim dijelom sačuvani do 12 m, odnosno 14 m visine, a debljina se kreće od 1,5 do 2,0 m, dok na južnoj strani ne prelazi 1,5 m. Unutrašnji branjeni prostor je relativno male površine od oko 1700 m². U drugoj polovini XX stoljeća grad je sistematski istraživao. Istraženo je oko 1000 m² površine što je nešto više od jedne trećine prostora opasanog gradskim bedemima. Utvrđeno je da je područje Starog grada Blagaj neprekidno bilo naseljeno od željeznog doba pa sve do 1835. Godine, kada su ga Turci napustili. U Blagaju je stolovao humski knez Miroslav, Nemanjin brat, u čije vrijeme se gradi Crkva sv. Kozme i Damjana. O gradnji crkve govori ploča sa ćirilničnim natpisom koja je 1912. godine pronađena u blizini ruševina starog dvorca Bišća i lokaliteta Vrač. Bosanski ban Stjepan II Kotromanić 1326. godine prvi put uključuje ovo područje u bosansku državu. Postoji nekoliko povelja koje izdaju bosanski vladari u Blagaju, još od vremena kralja Tvrtka I Kotromanića. U maju 1404. godine Blagaj postaje jedno od sjedišta vojvode Sandalja Hranića, a zatim i hercega Stjepana Vukčića Kosača. Osmanlije su zauzele Blagaj 1465. godine, a već 1473. godine spominje se blagajski kadija. Grad su popravljali dva puta: 1699. godine, kada je sanirana zapadna kula, a zatim 1827. godine. Odlukom Povjerenstva za očuvanje nacionalnih spomenika BiH, graditeljska cjelina STJEPAN GRAD U BLAGAJU proglašena je nacionalnim spomenikom Bosne i Hercegovine.

The old town of Blagaj or Stjepan-town was built on the most prominent place of a high and karst hill which is difficult to access. It is located at 310 meters above sea level and above the source of the river Buna from which it is 266 meters distant. Blagaj fortress is located on naturally flat terrain, over vertical cliffs on the south, west and north sides. Access in the form of sharp serpentine, 2 m narrow and 900 m long horse trail, leads to the entrance in the strongest east wall of the lobby. The walls are largely preserved up to 12 m and 14 m high, respectively, and the thickness ranges from 1.5 to 2.0 m, while on the south side it does not exceed 1.5 m. The internal defended area is a relatively small area of about 1700 m². In the second half of the 20th century, the city was systematically explored. About 1000 m² of area was explored, which is slightly more than one third of the area surrounded by city walls. It has been established that the area of the Old Town of Blagaj was being inhabited from the Iron Age until 1835, when the Turks abandoned it. The prince of Hum, Miroslav, Nemanja's brother sat in Blagaj and during that period the Church of St. Cosmas and Damian was being built. A plaque with a Cyrillic inscription, which was found in 1912 near the ruins of the old Bišće castle and the Vrač site, speaks of the construction of the church. In 1326, the Bosnian ban Stjepan II Kotromanić included this area in the Bosnian state for the first time. There are several charters issued by Bosnian rulers in Blagaj, dating back to the time of King Tvrtko I Kotromanić. In May 1404, Blagaj became one of the seats of Duke Sandalj Hranić, and then Duke Stjepan Vukčić Kosača. The Ottomans occupied Blagaj in 1465, and in 1473 the Blagaj kadi is mentioned. The city was repaired twice: in 1699, when the western tower was repaired, and then in 1827. By the decision of the Commission to Preserve National Monuments of BiH, the architectural ensemble STJEPAN GRAD U BLAGAJU was declared a National Monument of Bosnia and Herzegovina.

LOKACIJA / LOCATION:
MOSTAR
43°15'25"N - 17°54'13"E

Izvor rijeke "Bune" / The river "Buna" spring

Istočno od Mostara nalazi se Vrelo rijeke Bune, a predstavlja najveći kraški izvor na području Europe sa prosječnim godišnjim protokom od 43 m³ u sekundi. Izvor je smješten ispod kamene litice visoke 200m, a u blizini je sagrađena i Derviška Tekija koju još 1664. godine spominje putopisac Evlija Čelebija. Voda izvire iz pećine široke 17 metara, a prema istraživanjima podzemni tok vrela Bune dug je oko 200 m. Tijekom cijele godine voda je iznimno hladna i čista, što pogoduje razvoju i staništu različitih endemskih vrsta, poput potočne pastrve. Rijeka je duga 9 km, a konačno se ulijeva u Neretvu.

The spring of the Buna River is located east of Mostar, and it is the largest karst spring in Europe with an average annual flow of 43 m³ per second. The spring is located below a 200m high stone cliff, and the Dervish Tekija was built nearby, which was mentioned in 1664 by the travel writer Evlija Čelebija. The water springs from a 17-meter-wide cave, and according to research, the underground flow of the Buna spring is about 200 m long. Throughout the year, the water is extremely cold and clean, which favors the development and habitat of various endemic species, such as brown trout. The river is 9 km long and finally flows into the Neretva.

HOTEL ADA

Hotel "ADA" Wellness & Spa je turističko naselje sa 4 zvijezdice, nalazi se na odličnoj lokaciji u blizini Mostara to jeste Blagaj, uz obalu rijeke Bune okružen prirodom. Hotel je niz godine prepoznat kao odličan izbor za organizacija svečanosti, seminara, kateringa.

RESTORAN VRELO BLAGAJ

Ispod samog vrele Bune smješten je atraktivni restoran Vrelo Blagaj utopljen u okolni ambijent. Restoran je tradicionalno mjesto, gdje posjetitelji znaju da trenutak može da vrijedi vječnost ako ga znamo iskoristiti. Nezaboravni trenuci, gdje priroda na najbogatiji način pokazuje svoju raskoš, a ljudi koji je vole idu joj u zagrljaj. Restoran Vrelo je jedinstven, a bogatstvo ponude izdašno je kao i vrelo Bune. Gotovo da je nemoguće domaćem i stranom gostu, da svoje želje iz menija ne može ispuniti ovdje u potpunosti. Riblji specijaliteti imaju posebno lijep okus u ovom živopisnom predjelu.

The attractive restaurant Vrelo Blagaj is located below the Buna spring and it is immersed in the surrounding ambience. The restaurant is a traditional place, where visitors know that a moment can be worth an eternity if we know how to use it. Unforgettable moments, where nature shows its splendor in the richest way, and people who love it embrace it. The Vrelo Blagaj restaurant is unique, and the richness of the offer is as generous as the Buna spring. It is almost impossible for a domestic and foreign guest not to be able to fulfill their wishes from the menu here completely. Fish specialties have a particularly nice taste in this picturesque area.

CARSKI VINOGRADI

Carski vinogradi nalaze se u Gnojnicama, 12 kilometara od Mostara i prostiru se na površini od 100 hektara. Najbolja i najkvalitetnija vina regije proizvedena su upravo u ovom kraju. Područje Hercegovine jako je bogato sa sunčevom svjetlošću (tokom godine bilježi se po 2300 sati sijanja sunca), a kameniti tereni refleksijom pojačavaju njegovo pozitivno djelovanje na vinovu lozu, što rezultira visokokvalitetnim grožđem. Rukovodeći se kvalitetom kao jedinom imperativom u poslovanju proizveli smo 30 000 litara istinskog zadovoljstva za svu vinskogospodu i s ponosom na njega stavili pečat Bosne i Hercegovine.

Adresa / Address: Bišće polje bb, 88000 Mostar
Površina vinograda / Vineyard area: 100 000 m²
GPS: 43.284703, 17.857367 / Telefon / Phone: +387 36 577 328
E-mail: info@carskivinogradi.com

Imperial vineyards are located in Gnojnice, 12 kilometers from Mostar and cover an area of 100 hectares. The best and highest quality wines of the region are produced in this area. The area of Herzegovina is very rich in sunlight (2300 hours of sunshine are recorded during the year), and the rocky terrain enhances its positive effect on the vine by reflection, which results in high quality grapes. Guided by quality as the only imperative in business, we have produced 30,000 liters of true satisfaction for all wine ladies and gentlemen and proudly put the stamp of Bosnia and Herzegovina on it.

SPORTSKO-AVANTURISTIČKI PARK FORTICA

Sportsko-avanturistički park Fortica je pokrenut 2016. godine s ciljem da unaprijedi turističku ponudu Mostara u oblasti avanturističkog turizma kao i da doprinese razvoju sporta. Ranije je na širem području Podveležja postavljena vertikalna biciklistička signalizacija kojom su označene staze za brdski biciklizam a izrađene su i mape sa preko 200 km staza na cijelom području planine Velež. Na lokalitetu Fortice markirana je i izuzetno atraktivna downhill biciklistička staza. Pored potencijala u brdskom biciklizmu, na lokalitetu Fortice postoji i sportsko penjalište sa 13 smjerova koji vode do bunkera na uzvišenju pod imenom "Stolac". Osim navedenih sportskih aktivnosti lokalitet Fortice popularan je i zbog prelijeptog pogleda koji se pruža na grad Mostar i lokalne planine, a na ovom lokalitetu nalaze se i ostaci vojnih utvrda iz I i II svjetskog rata. Početkom 2018. godine na Fortici je izgrađen vidikovac, a iste godine otvoren je i najduži ZIP LINE u Bosni i Hercegovini koji privlači veliki broj posjetitelja i predstavlja glavnu atrakciju ovog parka.

Adresa / Address: Fortica bb, 88000 Mostar
Vrsta ponude aktivnog turizma: Zipline, Penjanje, Abseil (Rappel), Via Ferrata, Hiking, MTB, Planinski safari, Planinski dom
Active tourism offer: Zipline, climbing, Abseil (Rappel), Via Ferrata, hiking, MTB, Mountain safari, Mountain lodge
GPS: 43.349788, 17.829848 / Telefon / Phone: +387 61 175 762
E-mail: info@zipline.ba / Facebook: Zip Line Fortica Mostar
Instagram: forticazipline
Web: zipline.ba

Fortica Sports and Adventure Park was opened in 2016 with the aim of improving the tourist offer of Mostar in the field of adventure tourism as well as to contribute to the development of sports. Earlier, in the wider area of Podveležje, a vertical bicycle signalization was set up, which marked trails for mountain biking. There are also maps with over 200 km of trails in the entire area of Velež mountain. At Fortica site, an extremely attractive downhill bike path was marked. At Fortica site there is also a sport climbing area with 13 directions leading to a bunker on a hill called "Stolac". In addition to these sports activities, Fortica site is popular because of the beautiful view of the city of Mostar and the local mountains, and this site also contains the remains of military fortifications from World War I and II. At the beginning of 2018, a lookout was built on Fortica, and in the same year, the longest ZIP LINE in Bosnia and Herzegovina was opened, which attracts a large number of visitors and it is the main attraction of this park.

AKTIVNI TURIZAM

Geografski položaj, povoljna klima, krško podneblje i obilje sunca preduvjeti su za idealan bijeg od svakodnevnice i brzog načina života i aktivni odmor u prirodi. Iako je Hercegovina tek u zadnje vrijeme biva prepoznatljiva kao destinacija za aktivni turizam, primamljiva je posjetiteljima željnih provoda, avanture i adrenalina. Zahvaljujući bogatim prirodnim resursima, planinama, kanjonima i rijekama, regija ima potencijale za razvoj avanturističkog turizma. Avanturistički turizam nudi različite oblike aktivnosti poput brdskog biciklizma, vožnju čamcem rijekama, paraglajding, jahanje i sl. uz odmor, opuštanje i razgledavanje prirodnih ljepota. Aktivni turizam predstavlja spoj avanture, rekreacije, opuštanja i zabave kako bi se turisti udaljili od svakodnevnih problema i stresnih situacija.

ACTIVE TOURISM

Geographical position, favorable climate, karst area and plenty of sunshine are prerequisites for an ideal escape from everyday life and a fast-paced lifestyle and for an active vacation in nature. Although Herzegovina has recently become recognizable as a destination for active tourism, it is attractive to visitors eager for fun, adventure and adrenaline. Thanks to its rich natural resources, mountains, canyons and rivers, the region has the potential to develop adventure tourism. Adventure tourism offers various forms of activities such as mountain biking, river boating, paragliding, horseback riding, etc. with rest, relaxation and sightseeing. Active tourism is a combination of adventure, recreation, relaxation and fun to get tourists away from everyday problems and stressful situations.

Stari grad Vidoški

Old town Vidoški

LOKACIJA / LOCATION:
STOLAC
43°04'52"N - 17°57'17"E

Srednjovjekovni grad Vidoški utemeljen je u petom i šestom stoljeću, u vrijeme bizantskog cara Konstantina. Konstantin je u Stocu izgradio tvrđavu koja je štitila njegove trgovačke karavane koji su išli sa zapada prema istoku, nekadašnjem Bizantu, današnjem Istanbulu. Nakon cara Konstantina, grad je bio zapušten, sve do dolaska Slavena u osmom i devetom stoljeću, a u 14. i 15. doživio je svoj srednjovjekovni procvat, za vrijeme Hercega Stjepana Kosače. Grad 1471. godine osvajaju Turci i on dobija današnje konture sa svim tvrđavama, zidinama i kulama. Grad broji 13 kula, a podijeljen je u donji, srednji i gornji. Smješten je na uzvišenju iznad današnjeg središta Stoca i predstavlja obrambeni objekt koji po svojoj veličini spada u red najvećih bosanskohercegovačkih gradova. Današnji izgled grada čine ostaci onoga iz Austro-ugarskog razdoblja.

The medieval town Vidoški was founded in the 5th and 6th century during the time of the Byzantine emperor Constantine. Constantine built a fortress in Stolac which protected his trade caravans headed from the west to the east, to former Byzantium, today Istanbul. After the emperor Constantine, the town was neglected until the Slavs came in the 8th and 9th century. In the 14th and 15th century, during the rule of Herceg Stjepan Kosača, it experienced its medieval prosperity. In 1471, the town was conquered by Ottomans who gave a town today's outlines with all fortresses, walls and towers. The town has 13 towers. It is divided into lower, middle and upper town. It is located on the hill above contemporary centre of Stolac and is a defensive facility which, by its size, belongs to the line of the largest Bosnian and Herzegovinian towns. Contemporary form of the town consists of the remains of the Austro-Hungarian period.

Nekropola Stećaka Radimlja / "Stećak" Necropolis Radimlja

Nekropola stećaka Radimlja spada u najvrjednije i najpoznatije spomenike srednjovjekovnog perioda u BiH (14. i 15. stoljeće). Karakteristike koje ističu njenu vrijednost su: brojnost primjeraka, raznovrsnost i zastupljenost svih osnovnih oblika, relativno visoka umjetnička kvaliteta izrade, bogatstvo dekoracija i natpisa koji spominju povijesne ličnosti te sama njena dostupnost i smještaj. Na nekropoli se nalaze 135 stećaka, od kojih je 63 ukrašeno. Zaštitni znak ili znak raspoznavanja ove nekropole je muška figura s uzdignutom rukom i relativno velikom šakom i prstima, koja kao da govori putniku da će u ovom tvrdom i kršnom hercegovačkom kraju naići na gostoljubive i prijateljski raspoložene ljude. Posebnu važnost ima stećak velikaške pravoslavne obitelji Stipanović-Miloradović. Na tom stećku se nalazi natpis na bosančici, koji glasi: Sie lezi dobri Radoe sin Vojevode Stipana na svoj baštini na Batnogah. Si bilig postav na me brat moj vojevoda Petar. Komisija za očuvanje nacionalnih spomenika BiH, dana 2002. godine donijela je odluku kojom se povijesno područje – nekropola stećaka Radimlja kod Stoca proglašava nacionalnim spomenikom Bosne i Hercegovine.

Stećak Necropolis Radimlja is the most valuable and most famous monument of medieval period of Bosnia and Herzegovina (14th and 15th century). Its valuable characteristics are: number of tombstones, diversity, presence of all basic shapes, relatively high artistic quality of creation, rich decorations and engravings with the names of historical figures and its accessibility and location. There are 135 tombstones, 63 of which are decorated. Tombstones are recognized by a male figure with a raised arm and relatively large opened fist and fingers as if it is saying to the travellers that they will find a hospitable and friendly people here in a hard karst of Herzegovina. Tombstone of a great Orthodox family Stipanović-Miloradović has a special value. There is an engraving on bosančica (Bosnian alphabet) which says: "Sie lezi dobri Radoe sin Vojevode Stipana na svoj bastini na Batnogah. Si bilig postav na me brat moj vojevoda Petar." A Commission for Preservation of National Monuments of BiH brought a decision to proclaim a historical area of the necropolis Radimlja near Stolac a national monument of Bosnia and Herzegovina in 2002.

LOKACIJA / LOCATION:

Nekropola Stećaka Boljuni / "Stećak" Necropolis Boljuni

Nekropola se nalazi se u mjestu Boljuni, 12 kilometara jugozapadno od Stoca. Broji ukupno 273 stećka te je po veličini treća, a po brojnosti ukrašenih stećaka na prvom mjestu u BiH. Ukupno je ukrašeno 105 stećaka. Većina stećaka nastala je u 15. i 16. stoljeću. Među ukrasima koji se pojavljuju na nekropoli Boljuni najznačajniji različiti oblici križeva uklesani u raznolikim inačicama, motiv povijene lozice s trolistom, motiv štita i mača, motivi rozeta i plastičnih vrpca, motivi ljudskih i životinjskih figura, scena lova, scena kola, mjesec i zvijezde. Posebnu pozornost na nekropoli privlači prikaz žene s djetetom u naručju koja vjerojatno simbolizira Bogorodicu s malim Isusom. Među najbogatije ukrašene spada stećak s velikim križem pod kojim je pokopan Vojvoda Vlatko Vuković iz roda Kosača.

The necropolis is located in a village of Boljuni, 12 kilometers southwest of Stolac. It has 273 stećaks in total. It is the third by size and first by the number of decorated stećaks in Bosnia and Herzegovina. A total of 105 of them are decorated. Most of them date back to the 15th and 16th century. The most significant decorations found in Boljuni are different crosses carved in different varieties, a motif of a wine grape with a triplet leaf, a motif of a shield and a sword, motifs of rosettes and plastic ribbons, motifs of human and animal figures, hunting scenes, dancing scenes, the moon and stars. A figure of a woman with a child in her arms, which probably symbolizes the Lady with little Jesus, attracts special attention. The most abundantly decorated stećak is the one with a large cross where a Duke Vlatko Vuković Kosača is buried.

Hutovo blato / "Hutovo blato"

Park Prirode "Hutovo blato" osnovan je 1995. godine. Nalazi se u jugoistočnoj Hercegovini, sa lijeve strane rijeke Neretve na teritoriju općina Čapljina i Stolac. Zauzima površinu od 7411 ha. Smatra se jednim od najvećih zimovališta ptica na području Europe. Međunarodni Savjet za zaštitu ptica (ICBP) uvrstio je 1998. god. "Hutovo blato" u listu međunarodno važnih staništa ptica. Potom je 2001. god. Park prirode "Hutovo blato" upisan u listu močvara od međunarodne važnosti po metodologiji Ramsarske konvencije i registrirano je pri UNESCO-vom Direktoratu u Parizu.

LOKACIJA / LOCATION:
STOLAC
43°03'54"N - 17°48'13"E

Nature Park "Hutovo blato" is founded in 1995. It is located in southeast Herzegovina, on the left side of river Neretva on the territory of municipality of Čapljina and Stolac. It occupies area of 7411 ha. It is considered to be one of the largest bird winter resort for in Europe. International Council for Protection of Birds (ICBP) enlisted "Hutovo blato" to the list of internationally important bird habitat in 1998. Afterward in 2001, nature Park "Hutovo blato" becomes enlisted to the list of swamps of international importance according to the methodology of Ramsar convention and registered to the UNESCO's Directorate in Paris Manifestations.

Rijeka Bregava / The river Bregava

Bregava (stari nazivi Vidoštica i Vidova rijeka) je lijeva pritoka rijeke Neretve u Bosni i Hercegovini. Prolazeći kroz Stolac, pravi slapove i vodopade, teče na raznim nivoima, pravi ade. Razučena obala omogućava pristup vodi na mnogobrojnim mjestima, pružajući stanovnicima Stoca posebnu vezu sa rijekom. Na adama su formirane bašče, kupališta, stambeni kompleksi. Nizvodno od stambenog kompleksa Begovina nalazi se vodopad Provalije. Od srednjeg vijeka do danas u Stocu je sagrađeno 15 mostova, od kojih 10 predstavlja povijesne građevine. Mlinice sa mlinovima za žito i stupe sa badnjevima za valjanje, pranje i bojenje sukna su bile građene na Bregavi od 15. stoljeća. Do II. svjetskog rata život građana Stoca je značajno ovisio o Bregavi s obzirom da su na njoj su bili smješteni privredni objekti koji su osiguravali život stanovnika. U Stocu je do danas sačuvano, u potpunosti ili u ruševinama, 12 cjelina sa mlinicama, stupama i badnjevima. Danas u Stocu postoje tri velika kamena mosta i četiri manja, svi su oni u upotrebi i u relativno dobrom stanju. Premda se razlikuju veličinom, koncepcijom, starošću, detaljima, itd., povezuje ih zajednička crta, tj. da su svi odreda ostvarenja domaćih majstora. U Stocu danas zatičemo sljedeće mostove: ćuprija u Begovini, Most Sare Kašiković, Inat ćuprija, Lučki most, Novi most, Most kod Šarića ljetnikovca, Most za prilaz Adi, Most kod Podradske džamije, Podgradska ćuprija, te Most u polju.

The river Bregava (old names: Vidoštica or Vidov's river) is a left confluent of the river Neretva in Bosnia and Herzegovina. Flowing through Stolac, it creates falls and waterfalls, flows on different levels creating river islands. Indented coast enables access to water in multiple places, offering the inhabitants a special connection to the river. River islands serve for gardens, swimming areas and residences. Downstream from a residence of Begovina there is a waterfall Provalije. From the Middle Ages until today, 15 bridges have been built in Stolac, 10 of which are historic buildings. Mills with grain mills and stupe for rolling, washing and dyeing cloth were built on Bregava from the 15th century. Until World War II, the life of the citizens of Stolac depended significantly on Bregava, given that it housed commercial facilities that ensured the lives of the inhabitants. 12 units with mills, stupes and barrels have been preserved completely or in ruins until today in Stolac. Today in Stolac there are three large stone bridges and four smaller ones, all of which are in use and in relatively good condition. Although they differ in size, conception, age, details, etc., they are connected by a common feature, that they are all detachments of the achievements of local masters. Today we can find the following bridges in Stolac: the bridge in Begovina, the Bridge of Sara Kašiković, the Inat Bridge, the Port Bridge, the New Bridge, the Bridge near Šarić's summer house, the Bridge for Ada Access, the Bridge near the Podgrad Mosque, the Podgrad Bridge, and the Bridge in the Field.

MEHMEDBAŠIĆA KUĆA

Nacionalni spomenik, poznat kao Kuća Junuz-age Mehmedbašića, nosi naziv prema imenu svog posljednjeg vlasnika. Nalazi se u Stocu, u ulici koja je dio stare mahale, koja se u izvorima spominje kao Hamam-mahala.

The National Monument, known as the House of Junuz-age Mehmedbašić, is named after its last owner. It is located in Stolac, in a street that is part of the old mahala, which is mentioned in sources as Hamam-mahala.

VINARIJA DAORSON

Vinarija Daorson nastala je okupljanjem istinskih zaljubljenika u vino i vinogradarstvo u okviru vinarsko vinogradarske zadruge, prve te vrste u Bosni i Hercegovini. Proizvodi vino isključivo od autohtonih sorti grožđa Žilavke i Blatine. Vino Pinnes - Blatina i Žilavka, kvalitet je nastao posebnim odabirom grozdova, koje će uljepšavati stolove zahtjevnih vinskih klijenata. Grožđe dolazi iz vinograda s Dubravske visoravni te Carskih vinograda Mostarskog vinogorja.

Daorson Winery was created by gathering true lovers of wine and viticulture within the winemaking association, the first of its kind in Bosnia and Herzegovina. It produces wine exclusively from autochthonous grape varieties Žilavka and Blatina. Wine Pinnes - Blatina and Žilavka, the quality was created by a special selection of grapes, which will beautify the tables of the demanding wine clientele. The grapes come from vineyards from the Dubravska plateau and the Emporia vineyards of the Mostar vineyards.

SMJEŠTAJ

Hercegovina je oduvijek bila na raskrižjima civilizacija kroz koju su prolazili značajni putovi. Uz te putove nicali su različiti objekti za prihvrat putnika, prvi oblici smještajnih jedinica. Od najstarijih vremena do danas promijenilo se mnogo toga, danas Hercegovinu krase moderne i udobne smještajne jedinice u širokom rasponu od klasičnih hotela i motela, do kuća za odmor i ostalog privatnog smještaja. Kao novi oblik turističke ponude u hercegovačkoj regiji kuće za odmor masovnije se javljaju posljednjih godina, a zbog velike potražnje, od starih obiteljskih kamenih kuća u hercegovačkom kršu nikli su velebn objekti za najam. Hercegovci, koji su poznati kao dobri i srdačni domaćini, posjetiteljima su uvijek na raspolaganju za preporuku ili savjet, ali i za sva druga pitanja i informacije koje turiste zanimaju.

ACCOMMODATION

Herzegovina has always been at the crossroads of civilizations through which significant paths passed. Along these roads, various passenger reception facilities sprang up, the first forms of accommodation units. From the earliest times until today, much has changed, today Herzegovina is adorned with modern and comfortable accommodation units in a wide range from classic hotels and motels, to holiday homes and other private accommodation. As a new form of tourist offer in the Herzegovinian region, holiday homes have become more widespread in recent years, and due to high demand, magnificent family houses for rent have sprung up from old family stone houses in the Herzegovinian karst. Herzegovinians, who are known as good and cordial hosts, are always available to visitors for a recommendation or advice, but also for all other questions and information that interest tourists.

Stari grad Počitelj

Old town Počitelj

Stari grad Počitelj prema pretpostavkama gradi bosanski kralj Stjepan Tvrtko I još krajem 14. st. Grad je morfološki prilagođen terenu na stjenovitoj litici iznad obale rijeke Neretve. U pisanim izvorima, prvi puta se spominje 1444. godine, u poveljama kralja Alfonsa V i Fridriha III. U periodu od 1463. do 1471. godine u Počitelju je smještena ugarska postava. 1471. godine, nakon kraće opsade, grad postaje dio Otomanske imperije, u čijem će sastavu ostati sve do 1878. godine. Nakon uspostavljanja vlasti Austro-Ugarske u BiH 1878. godine, Počitelj gubi svoj strateški značaj i naglo propada.

According to assumptions, the old town of Počitelj was built by the Bosnian king Stjepan Tvrtko I at the end of the 14th century. The town was morphologically adapted to the terrain on a rocky cliff above the bank of the river Neretva. In written sources, it is first mentioned in 1444, in the charters of King Alfonso V and Frederick III. In the period from 1463 to 1471, a Hungarian installation was located in Počitelj. In 1471, after a brief siege, the city became part of the Ottoman Empire, of which it would remain until 1878. After the establishment of Austro-Hungarian rule in BiH in 1878, Počitelj lost its strategic importance and suddenly collapsed.

VINA ZADRO

U vinogradima su posađene autohtone sorte Žilavka i Blatina s pratećim sortama, kao i sorte Vranac, Chardonnay, Cabernet Sauvignon i Merlot. Osim vinograda, Vina Zadro posjeduje modernu vinariju kapaciteta 15 000 hektolitara. Vinarija, osim što proizvodi vrhunska i kvalitetna vina poznata je i kao prva vinarija u Bosni i Hercegovini koja je 1998. godine proizvela prvi i jedini hercegovački pjenušac od sorte grožđa Žilavka. Pjenušac Domano je proizveden klasičnom metodom vrenja u boci.

Indigenous varieties Žilavka and Blatina with accompanying varieties, as well as varieties Vranac, Chardonnay, Cabernet Sauvignon and Merlot have been planted in the vineyards. In addition to vineyards, Vina Zadro has a modern winery with a capacity of 15,000 hectoliters. The winery, in addition to producing top and quality wines, is also known as the first winery in Bosnia and Herzegovina that in 1998 produced the first and only Herzegovinian sparkling wine from the Žilavka grape variety. Domano sparkling wine is produced by the classic method of boiling in a bottle.

ADVENTURE TREBIŽAT, UG TAJNA PRIRODE

Rijeku s devet imena, čiste i bistre vode, krivudavim tokom i laganim brzacima najbolje ćete upoznati odlučite li se na kanu safari, turističku atrakciju koju organizira Udruga "Tajna prirode". Rijeka je na početku izletničke rute tiha i mirna, a kasnije postaje brza i uzbudljivija. Temperatura vode u ljetnim mjesecima iznosi oko 20°C, činivši je izvrsnom i za one osjetljive na temperaturne razlike. Dobna granica za sudionike gotovo da i ne postoji, pa je ova vrsta izleta izvrsna i za one u naponu snage željne adrenalina, kao i one željne potpune relaksacije i poistovjećivanja sa prirodom. Tokom izleta vidjet ćete mnogo riba i ptica različitih vrsta kao i lijepe sedrene vodopade, te savršen sklad rijeke i netaknute prirode koja je okružuje.

You will get to know the river with nine names of clean and clear water, winding course and easy rapids, if you decide on a canoe safari, a tourist attraction organized by the association "Tajna Prirode". At the beginning of the excursion route, the river is quiet and peaceful, and later it becomes faster and more exciting. The water temperature in the summer months is around 20 °C, making it excellent even for those sensitive to temperature differences. The age limit for participants is almost non-existent, so this type of trip is excellent for those in full force who want adrenaline, as well as those who want complete relaxation and identification with nature. During the trip you will see many fish and birds of different species as well as beautiful travertine waterfalls, and the perfect harmony of the river and the untouched nature that surrounds it.
