Putevi istorije: Austrougarske tvrđave

Roads of history: Austro-Hungarian fortresses

Na pet tematskih puteva kroz Boku kotorsku i Hercegovinu upoznate jedan od najjačih i najvećih odbrambenih sistema u Evropi s kraja XIX i početka XX vijeka. Obilazak austrougarskih tvrđava predstavlja neobičan i uzbudljiv doživljaj, istorijsku i istraživačku avanturu.

By walking along five thematic routes through the Bay of Kotor and Herzegovina, you will get to know one of the strongest and largest defense systems in Europe from the end of the 19th and the beginning of the 20th century. Visiting the Austro-Hungarian fortresses represents an unusual and exciting experience, historical and exploratory adventure.

Pet razloga zašto treba da prođete svih pet tematskih puteva

1. **Mediterranska priroda i najljepši pogled na Jadran i njegovo planinsko zaleđe** - panoramski vidici na Boku i na Trebinje; kameno more planina čiji se obrisi smjenjuju poput talasa; mirisi borovine i ljekovitog mediteranskog bilja koji vas prate dok prelazite kilometre nekadašnjih vojnih puteva.
2. **Druženje u prirodi** - razni grupni zadaci: igra orijentiranja, pronalaženje skrivenih staza, zagonetke, otkrivanje heraldičkih znakova - dok, istovremeno, pješačite ili vozite bicikl. Družićete se i sa domaćinima iz sela Krivošija, Luštice ili na pijaci u Trebinju, koji će vas rado počastiti darovima čiste prirode.
3. **Najljepši stari gradovi Jadrana i zaleđa** - Kotor, Tivat, Risan, Perast, Herceg Novi i Trebinje. More i dobro vino, treba li išta više reći?
4. **Kulturna baština Evrope** - obići ćete čak 15 tvrđava i fortifikacijskih cjelina, ostatke vojnog grada, tri vojna logora i važne strateške kote južne austrougarske granice.
5. **Preispitivanje istorije koja je uticala na živote vaših predaka** - fotografije iz tog vremena, priče o istorijskim ličnostima i običnim ljudima koji su živjeli ili mogli biti sudionici burnog vremena, pomoći će vam da kroz ogledalo prošlosti sagledate i preispitate sadašnje vrijeme. Upravo to i jeste suština istorije.

Five reasons of going through all five thematic routes

1. **Mediterranean nature and the most beautiful views over the Adriatic and its mountainous hinterland** - panoramic views of the Bay of Kotor and Trebinje; the rocky sea of mountains whose outlines alternate like waves; the scents of pine and Mediterranean herbs that accompany you as you cross miles of former military roads.
2. **Socializing in nature** - Various group tasks await you: orienteering, finding hidden paths, mysteries, discovering heraldic signs - while walking or cycling. You will also spend time with the hosts from villages of Krivošije, Luštica or at the marketplace in Trebinje, who will be happy to honor you the gifts of pure nature.
3. **The most beautiful old towns of the Adriatic and its hinterland** - Kotor, Tivat, Risan, Perast, Herceg Novi and Trebinje. Sea and good wine, need we say more?
4. **Cultural heritage of Europe** - you will visit as many as 15 fortresses and fortifications, the remains of one military town, three military camps and important strategic points of the southern Austro-Hungarian border.
5. **Revise history that affected the lives of your ancestors** - photographs from that time, stories about historical figures and ordinary people who lived or could have been participants in turbulent times, will help you to see and re-examine the present through the mirror of the past. Precisely this is the essence of history.

Utvrdjivanje južne granice

Establishment of the southern border

Tokom XIX vijeka Austrougarska je na Jadranu vladala teritorijom Dalmacije i Boke kotorske, sve do Sutomore. Godine 1878. dobija Bosnu i Hercegovinu, kada su međunarodno priznate Crna Gora i Srbija. Sljedećih nekoliko decenija Beč sprovodi na Balkanu vojne planove po kojima se utvrđuje granica prema Crnoj Gori.

Pojasna tvrđava Boka je bio odbrambeni sistem namijenjen za zaštitu južne vojne luke i južne granice Carstva. Do 1914. izgrađen je fortifikacioni sistem sa preko 80 tvrđava i pomoćnih fortifikacija.

Pojasna odbrana Hercegovine sastojala se od utvrđenih gradova: Trebinja, Bileće, Mostara i Sarajeva i tri linije odbrane. Oko Trebinja je za četiri decenije izgrađeno devet tvrđava, a grad sa okolinom potpuno je pokriven artiljerijom.

During the 19th century, Austria-Hungary ruled the territory of Dalmatia and the Bay of Kotor on the Adriatic, all the way to Sutomore. In 1878, the Empire gained control of Bosnia and Herzegovina, when Montenegro and Serbia were internationally recognized. For the next few decades, Vienna was implementing military plans in the Balkans in order to establish the border with Montenegro.

***Boka belt fortress** was a defense system intended to protect the southern military port and the southern border of the Empire. By 1914, a fortification system with over 80 fortresses and auxiliary fortifications had been built.*

***Herzegovina belt defense** consisted of fortified towns: Trebinje, Bileća, Mostar and Sarajevo and three defense lines. Nine fortresses were built around Trebinje in four decades, and the town and its surroundings were completely covered with artillery.*

O prvom tematskom putu / The first thematic route

Na tematskom putu "Tvrđave i vrhovi Krivošija" otkrićete magičnost svijeta napuštenih fortifikacija. Idući ka području Krivošija koje se prostire sjeverozapadno od Orjena, između Risna i Grahova, uočićete na vrhovima okolnih brda ostatke nekada moćne austrougarske imperije.

Pratite putokaze P1 od male crkve u Dragalju do tvrđave **Dvrsnik** koja dominira Grahovskim i Dragaljskim poljem. Put je makadamski, staza je laka, sa blagim usponima.

Čuvari planinarskih prevoja Guardians of mountain passes

Svaki od pet tematskih puteva jedinstven je doživljaj. Drugi se izdvaja po fantastičnim vidikovcima i lokalitetima, kao i osjećaju da ste nadomak oblaka.

Each of the five thematic routes is a unique experience. The second one stands out for its fantastic viewpoints and localities, as well as for the feeling that you are close to the clouds.

O drugom tematskom putu / The second thematic route

Staza prati široki austrougarski put, od prevoja Grkavac, gdje je nekada bio vojni logor, ka jugoistoku. Sa njega se otvara pogled ka Ledenicama, danas selu u pitomoj zaravni, a nekada takođe vojnom logoru koji je bio dom za preko 2000 vojnih regruta. Uz put ćete naići na nekoliko funkcionalnih bistijerni.

Na putu ka tvrđavama Šanik i Vranovo brdo, nakon 5 km, stižete do uređenog **vidikovca**.

The trail follows a wide Austro-Hungarian road, from the Grkavac pass, where a military camp used to be located, to the southeast. It offers a view of Ledenice, today a village in a tame plateau, and once a military camp that was a home to over 2000 military recruits. Along the way, you will come across several functional cisterns.

On the way towards fortresses Šanik and Vranovo Hill, after 5 km, you will reach an arranged **viewpoint**.

Pogled na Risan
View towards Risan

Poslije 3 km stižete do podnožja brda Šanik u selu Ubalac. Preporučujemo da obiđete prvo istoimenu tvrđavu **Šanik**.

Pogled sa tvrđave Šanik na obronke Orjena
View from fortress Šanik on the slopes of mountain Orjen

After 3 km, you will reach the foot of Šanik hill in the village of Ubalac. We recommend to visit fortress **Šanik** first.

Pogled sa tvrđave Šanik na Vranovo brdo,
polovinu Bokokotorskog zaliva i otvoreno more
View from fortress Šanik to Vranovo Hill,
half of the Bay of Kotor and the open sea

Pogled sa tvrđave Vranovo brdo prema Vrmcu,
tjesnacu Verige i ulazu u Herceg Novi
View from the fortress Vranovo Hill towards Vrmac,
the Verige Strait and the entrance to Herceg Novi

Na povratku, put vodi dalje do tvrđave Vranovo brdo, u narodu poznate i kao Sveti Andrija. Iako poprilično razrušena, moguće je bezbjedno istražiti njenu unutrašnjost.

Veličanstveni prizori biće vam nagrada za sve prepješačene kilometre.

On the way back, the route leads further to the fortress Vranovo Hill, popularly known as St. Andrew. Although quite ruined, it is possible to safely explore its interior.

Magnificent scenes will be your reward for all the kilometers walked.

O trećem tematskom putu / The third thematic route

Na 1000 mnm, u zelenoj zaravni između tvrđava Kom i Stražnik, austrougarska vojska je izgradila 150 objekata za smještaj oko 10.000 vojnika. Život u tom logoru - gradiću nije se razlikovao od života u mjestima na obali. Danas, ako posjetite Crkvice, zateći ćete ruine i zidine obrasle vegetacijom, i zanimljivu priču na informativnim tablama o vremenu na prelazu vijekova.

At 1000 meters above sea level, in the green plateau between the fortresses Kom and Stražnik, the Austro-Hungarian army built 150 facilities to accommodate about 10 000 soldiers. Life in that camp – town was no different from life in places on the coast. Today, if you visit Crkvice, you will find ruins and walls overgrown with vegetation and an interesting story on info boards about the time at the turn of the century.

KULTURNO-ISTORIJSKE ATRAKCIJE / CULTURAL-HISTORICAL ATTRACTIONS

ARHEOLOGIJA

Brojne pećine i okapine Orjena prava su poslastica za ljubitelje speleologije. U jednoj od takvih, pećini Vranjaj, pronađeni su ostaci materijalne kulture još iz razdoblja starijeg neolita, a u okapini kod Žlijebske jame su ostaci praistorijske keramike.

ARCHAEOLOGY

Numerous caves and pits of Orjen are a real treat for speleology lovers. In one of these, the Vranjaj cave, remains of material culture from the older Neolithic period have been found, and in the pit near Žlijebska jama the remains of prehistoric pottery have been discovered.

ORJENSKA SELA

Prateći oskudan teren pogodan za zemljoradnju i stočarstvo, od zapada prema istoku, uočavaju se sela: Kruševica, Kamen, Žlijebi i Vrbanj. Osnovni građevinski materijal bio je kamen od kojeg su građeni zidovi kuća, pojata, a ponegdje i krovovi.

ORJEN VILLAGES

Following the scarce terrain suitable for agriculture and cattle breeding, from west to east, the villages Kruševica, Kamen, Žlijebi and Vrbanj can be seen. The basic building material was stone, from which the walls of houses, cisterns and in some places roofs were built.

KATUNI

Na Orjenu se kao i na ostalim crnogorskim planinama praktikovalo izdizanje stoke u katune tokom ljetnjih mjeseci. Kolibe su građene od suvomeđe, a vodu su obezbjeđivali tako što su gradili male porodične bistijerne.

Danas se katuni skoro i ne koriste, a ostaci koliba i suvomeđe, duž planinarskih i biciklističkih staza, ostaju da svjedoče o jednom vremenu.

SUMMER PASTURES („KATUNS“)

On Orjen, as on other Montenegrin mountains, cattle was brought in summer pastures during the summer months. The huts were built of drywall and water was provided by building small family cisterns.

Today, summer pastures are almost never used, and the remains of huts and drywall, along hiking and biking trails, remain to testify about a time.

Prolazeći tim putevima vidjećete brojne kamene podzide, građene tradicionalnom tehnikom suvozida, bez vezivnog materijala.

ROADS AROUND ORJEN

Pedestrian and vehicular roads built by Austria-Hungary are still in function today. They were built after the First Krivošije Uprising, in order to provide passability and traffic communication.

Passing these roads, you will see numerous stone subwalls, built by the traditional technique of drywall, without binding material.

Pet moćnih tvrđava

Five mighty fortresses

Četvrti tematski put vodi do pet moćnih tvrđava – Goražde, Vrmca, Grabovca, Kabale i Luštice – najvećih sačuvanih u sistemu odbrane Boke. Pripremite se za potpuni doživljaj za sva čula – od fantastičnih vidikovaca, maslinjaka, mirisa nara i ljekovitog bilja, morskog vazduha, šuma mora, do uspavanih sela i mediteranske kuhinje.

Posjetite kulturno-istorijske objekte u Kotoru i Tivtu, gdje se nalazila komanda ratne luke Boke

The fourth thematic route leads you to five mighty fortresses – Goražda, Vrmac, Grabovac, Kabala and Luštica – the largest preserved fortresses in the Boka defense system. Get ready for a complete experience for all the senses – from fantastic viewpoints, olive groves, the scent of pomegranate and medicinal herbs, sea air, the sound of sea, to sleepy villages and the Mediterranean cuisine.

Visit many cultural and historical buildings in Kotor and Tivat, where the command of the Boka military port was located.

O četvrtom tematskom putu / The fourth thematic route

Na obodima kotorskog dijela zaliva stoje dvije oklopljene tvrđave – Vrmac i Goražda. Tvrđava Vrmac bila je jedna od najvažnijih za Lovčensku liniju odbrane. Od utvrđenja i izletišta postoje pješačke staze – jedna ka obali, do mjesta Muo, a druga vodi do vidikovca Sveti Ilija koji motri na Kotorski i Tivatski zaliv. Sa druge strane, stražari Goražda. Pratite smjerokaze koji vode do te tvrđave. Kada dođete do nje shvat ćete zbog čega je imala toliki značaj u odbrani vojne luke.

Obilazak tvrđava nastavite idući prema Luštica. Na kopnu između uvala Trašte i Tivatskog zaliva nalazi se tvrđava Grabovac. Poput Goražde, ukopana je u zemlju i teško uočljiva dok joj se sasvim ne približite. Pogled sa nje pruža se na zaštićeno područje Tivatskih solila. Nastavite dalje, ka zapadnoj obali Luštice. Na samoj obali su tvrđave Luštica i Kabala, konstruisane gotovo identično.

Two armored fortresses are located on the edges of the Kotor part of the Bay – Vrmac and Goražda. Fortress Vrmac was one of the most important fortresses for the Lovćen defense line. Hiking trails lead from the fortification and picnic area – one towards the coast, to the place called Muo, and the other leads to the viewpoint St. Elias Peak, which overlooks the Bay of Kotor and the Bay of Tivat. Fortress Goražda guards on the other side. Follow the signposts leading to the fortress. When you get to it, you will understand its importance in the defense of military port.

Continue the tour of the fortresses on the way towards Luštica. Fortress Grabovac is located in the land between the Bay of Trašte and the Bay of Tivat. Just like fortress Goražda, it is dug in the ground and hardly noticeable until you get quite close to it. The view from the fortress extends to the protected area of Tivat saline. Continue further, towards the west coast of Luštica. On the very shore you will see fortresses Luštica and Kabala, constructed almost identically.

U blizini tvrđave Luštica nalazi se kratka pješačka staza koja vodi do nekadašnjeg mitraljeskog gnijezda i vidikovca Gomile.

Short hiking trail that leads to the former machine gun nest and the Gomile viewpoint can be found near fortress Luštica.

POLUOSTRVO LUŠTICA / LUŠTICA PENINSULA

Najmanje naseljeno primorsko područje, poluostrovo Luštica, nalazi se na ulazu u Bokokotorski zaliv. Možete ga obići automobilom ili još bolje – biciklom ili pješke, otkrivajući seoske puteve, gostoljubive domaćine...

Brojnim plažama i uvalama koje su posebna draž poluostrova možete prići s kopna i s mora. Ne propustite da posjetite uvalu Mirište i plažu Žanjice, sa kojih ćete imati direktan pogled na tvrđave prve linije odbrane Zaliva: Arzu, Mamulu i Prevlaku. Nedaleko je i uvala Veslo, do koje se dolazi seoskim putićem, a koja je idealno mjesto za ronjenje i podvodni ribolov. Tu su i pitomije plaže sa lokalnim konobama koje pružaju poseban ugođaj - Plavi Horizonti, Oblatno, Dobreč, Bigova i Velja Spila koja se nalazi u uvali Trašte.

The least populated coastal area, Luštica peninsula is located at the entrance to the Bay of Kotor. It can be visited by car or even better – by bike or on foot, discovering village paths, hospitable hosts...

Numerous beaches and coves that are special attraction of the peninsula can be accessed from the mainland and from the sea. Do not miss to visit the Bay of Mirište and Žanjice beach, from which you will have a direct view of the fortresses of the first defense line of the Bay: Arzu, Mamula and Prevlaka. Bay of Veslo is located nearby, which can be reached by a village path and which is an ideal place for diving and spearfishing. There are also tame beaches with local taverns that provide a special atmosphere

PLAVA ŠPILJA

Tu prirodnu znamenitost možete posjetiti jedino brodom. Vedrim danima zraci sunca se prelamaju i osvjetljavaju vodu unutar pećine, čineći je plavom. Ne propustite da se okupate u pećini i doživite jedno potpuno novo morsko iskustvo.

BLUE CAVE

This natural landmark can be visited only by boat. On clear days, the sun's rays refract and illuminate the water inside the cave, making it blue. Do not miss to swim in the cave and experience a completely new sea experience.

LUŠTIČKA SELA

Stanovništvo dvanaest sela i zaseoka vjekovima se bavi maslinarstvom i zemljoradnjom. Brojne kuće i danas imaju stare mlinove za preradu maslina. U selu Mrkovi, vidjećete kulu koja je služila za skrivanje stanovništva od najezde pirata.

Lušičani su bili i vješti pomorci. Posjetite selo Zembelići i rodnu kuću slavnog čileanskog kapetana Petra Zembelića. Slobodno pokucajte na vrata gostoljubivih mještana, i čujte njihove priče....Luštica, u narodu poznata kao „mala Sveta gora“, prepoznatljiva je i po 22 crkve, od kojih je najstarija sagrađena prije više od 1000 godina.

LUŠTICA VILLAGES

The population of twelve villages and hamlets has been engaged in olive growing and agriculture for centuries. Many houses still have old olive mills. In the village of Mrkovi, you will see a tower that served to hide the population from the pirate invasion.

The people of Luštica were also skilled sailors. Visit the village of Zembelići and the birthplace of the famous Chilean captain Petar Zembelić. Feel free to knock on the door of the hospitable locals and hear their stories... Luštica, popularly known as the "small Mount Athos" is recognizable by 22 churches, the oldest of which was built more than 1000 years ago.

RIBARSKO SELO ROSE

Naselje je godinama bilo luka, carinska zona i mjesto obaveznog karantina za mornare. Danas, Rose su tiho i mirno mjesto sa starim mediteranskim kamenim kućama.

Mjesto je interesantno i za ronioce, a na plaži iza tvrđave Forte Rose nalazi se olupina broda "Bokelj" koja je svojevrsna atrakcija.

FISHING VILLAGE ROSE

This settlement was a port, a customs zone and a place of obligatory quarantine for sailors for years. Today, Rose is a quiet and peaceful place with old Mediterranean stone houses.

The place is interesting for divers, and a ship wreck "Bokelj" can be found on the beach behind the fortress Forte Rose, which is a kind of attraction of itself.

GASTRONOMIJA BOKE / GASTRONOMY OF THE BAY OF KOTOR

Blaga mediteranska klima i plodno tlo uslovlili su da se Bokom prepliću mirisi i ukusi agruma, maslinovog ulja, vina, ribe i školjki. Kao desert, uglavnom se služi svježe i suvo mediteransko voće. Od slatkih specijaliteta izdvajamo perašku tortu koja je čak uvrštena na listu nematerijalnih dobara Crne Gore, kao i kotorsku paštu (krempitu) čiji se recepti prenose sa generacije na generaciju. Što se tiče nasljeđa, Austrougarska nam je, u gastronomskom smislu, ostavila kremaste torte i štrudle koje možete probati u poslastičarnicama duž Zaliva.

The mild Mediterranean climate and fertile soil have caused the scents and flavors of citrus, olive oil, wine, fish and shells to intertwine in the Bay of Kotor. As a dessert, fresh and dried Mediterranean fruit is mostly served. When it comes to sweet specialties, we must mention Perast cake, which is even included in the list of intangible assets of Montenegro, as well as Kotor pasta (cremeschnitte) whose recipes are passed down from generation to generation. As for heritage, Austro-Hungary has left us, in gastronomic terms, creamy cakes and strudels that you can taste in pastry shops along the Bay.

Kamena straža oko Trebinja

Stone guards around Trebinje

Peti tematski put vas vodi do kamenih stražara Trebinja - tvrđava sa kojih je kontrolisana odbrana vojnog grada Trebinje i austrougarska granica prema Crnoj Gori: Petrine, Golog brda, Strača i uporišta kod Golog brda i Kučinog brda. Obidite ih, pješačite i uživajte u pogledu na Trebinje i planine koje ga okružuju.

The fifth thematic route takes you to the stone guards of Trebinje – the fortresses from which the defense of the military town of Trebinje and the Austro-Hungarian border towards Montenegro were controlled: Petrina, Golo brdo, Strač and the stronghold Kučino brdo. Visit them, walk and enjoy the view of Trebinje and the surrounding mountains.

O petom tematskom putu / The fifth thematic route

Pratite kroz grad turističku signalizaciju i smjerokaze za tvrđavu Strač, koji vas vode do starog austrougarskog makadamskog puta. Dalje vas planinarska markacija vodi do raskrsnice sa koje se put razdvaja u dva pravca. Oba pravca prate dvije interesantne tematske priče koje ilustruju vrijeme u kojem su građene fortifikacije oko Trebinja.

Lijevi put vodi do tvrđava Petrina i Golo brdo i do uporišta kod Golog brda. Njime teče “Andrićeva priča o životu pod carevinom”. Kako napredujete serpentinama, otvara se predivan pogled na Trebinje, vinograde Popovog polja i meandre rijeke Trebišnjice.

Follow the signposts through the town towards the fortress Strač, which lead you to the old Austro-Hungarian macadam road. Further, the mountain markings lead you to the crossroad from which the road separates in two directions. Both directions are accompanied by two interesting thematic stories that illustrate the time in which the fortifications around Trebinje were built.

The left road leads to the fortresses Petrina and Golo brdo and to the stronghold near Golo brdo. “Andrić’s story about life under the empire” flows through it. As you progress through the serpentines, a beautiful view of Trebinje, vineyards of Popovo polje and the meanders of the river Trebišnjica open up.

Pogled na Trebinje i okolinu
View of Trebinje and its surroundings

Ako pođete desno, pratite "Put tvrđava i naoružanja" koji vas vodi do uporišta na Kučinom brdu i dalje do najpoznatije austrougarske fortifikacije na južnoj granici carstva - oklopljene betonske tvrđave Strač. Uz dodatan oprez, popnite se na vrh tvrđave i sagledajte teritoriju koju je pokrivala njena artiljerija.

If you go to the right, follow the "Route of fortresses and arms" which leads you to the stronghold Kučino brdo and further to the most famous Austro-Hungarian fortification on the southern border of the empire – fortress Strač. With extra caution, climb to the top of the fortress and see the territory covered by its artillery.

Šta da obiđete u blizini petog tematskog puta? What to visit near the fifth thematic route?
